

REMARKS

Claims 1-14 are cancelled. New claims 15-56 are added by way of this amendment. The currently pending claims all have priority to Swedish Application Serial No. 0400208-5, filed February 2, 2004, a copy of which is enclosed. New claims 15-17 are supported by claims 1, 3, and 6 as filed in the priority document; claims 18-36 are supported by the disclosure on page 4, line 8 to page 6, line 8 of the priority document; and claims 38-56 are supported by Examples 1-3 and 5-20 of the priority document. Any claims that potentially have priority only to PCT International Application No. PCT/SE2005/000110, filed January 31, 2005, and not Swedish Application Serial No. 0400208-5, have been deleted. Some new matter and new claims were added to PCT International Application No. PCT/SE2005/000110, but those claims are not included among new claims 15-56.

Between the filing of Swedish Application Serial No. 0400208-5 and PCT International Application No. PCT/SE2005/000110, it was discovered that a salt of a specific compound disclosed in Swedish Application Serial No. 0400208-5 has advantageous properties. That salt is not disclosed in PCT International Application No. PCT/SE2005/000110 (or the present application, which is the national phase version of PCT International Application No. PCT/SE2005/000110). Rather, that salt is disclosed in PCT application no. PCT/SE2007/000321 in Example 1, a copy of which also is enclosed. Applicants have limited the pending claims to those that have priority to Swedish Application Serial No. 0400208-5.

Please apply any charges to deposit account 06-1050, attorney docket number 06275-518US1.

Respectfully submitted,

Date: September 14, 2007
